

Product Information

AGOLIN POULTRY

Description:	AGOLIN POULTRY is a blend of flavouring compounds for animal nutrition. Appearance: white / beige Structure: free flowing, non-dusty micro-beads Odour: clove like
Active ingredients:	AGOLIN POULTRY is a carefully balanced combination of micro-encapsulated essential oil compounds in their natural / nature-identical form. All active substances are of high purity and are accepted for use under current European animal feed and human food legislation.
Mode of action:	AGOLIN POULTRY helps to optimise feed intake and digestive functions.
Utilisation:	For feed production only.
Recommended dosage:	100 - 200 mg/kg of feed for poultry.
Incorporation:	AGOLIN POULTRY should be incorporated into premixes prior to mixing in feed in order to ensure a homogenous distribution.
Storage:	Store in a dry place and at less than 25°C. Once opened, contents should be used within a short period of time. Carefully seal the package after each withdrawal. Avoid storage of AGOLIN POULTRY in plastic or plexiglass containers.
Expiry date:	18 months after production.
Stability:	AGOLIN POULTRY is stable in premixes, concentrates as well as in mash, pelleted or expanded feed.
Palatability:	At the recommended dosage AGOLIN POULTRY is readily accepted.
Compatibility:	AGOLIN POULTRY is compatible with other commonly used feed additives such as enzymes, acidifiers, probiotics, etc.
Tolerance:	At three times the recommended level, feed intake might be reduced.
Safety for non-target animals:	In case of accidental access to non-target animals, AGOLIN POULTRY presents no particular risks.
Packaging:	AGOLIN POULTRY is available in 25 kg cardboard boxes with a polyethylene inner bag.
Quality control:	AGOLIN POULTRY is subject to a strict quality control procedure before release for distribution.

Product Information

Health and safety data sheets:

Available upon request.

Legislation:

For EU countries, AGOLIN POULTRY complies with the Regulation (EC) 1831/2003 on feed additives and the legislation concerning the undesirable substances and products in animal nutrition.

AGOLIN POULTRY is classified as "premixture of flavouring compounds" (sensory additives).

All flavouring compounds used in AGOLIN products are listed on the Register of Feed Additives pursuant to Regulation (EC) No. 1831/2003.

For the United States, all flavour ingredients contained in AGOLIN POULTRY are FDA approved.
