

## Product Information

### AGOLIN TANNIN

<b>Description:</b>	AGOLIN TANNIN is coated chestnut extract for animal nutrition. Appearance: dark brown Structure: free flowing, micro-beads Odour: woody
<b>Active ingredient:</b>	AGOLIN TANNIN consists of encapsulated natural chestnut extract, containing min. 75 % of hydrolysable tannins. The active substance is of high purity and is accepted for use under the current European animal feed legislation.
<b>Mode of action:</b>	AGOLIN TANNIN helps to optimise feed intake and digestive functions.
<b>Utilisation:</b>	For feed production only.
<b>Recommended dosage:</b>	250 - 750 mg/kg of feed for poultry, pigs and ruminants.
<b>Incorporation:</b>	AGOLIN TANNIN should be incorporated into premixes prior to mixing in feed in order to ensure a homogenous distribution.
<b>Storage:</b>	Store in a dry place at room temperature. Once opened, contents should be used within a short period of time. Carefully seal the package after each withdrawal.
<b>Expiry date:</b>	18 months after production.
<b>Stability:</b>	AGOLIN TANNIN is stable in premixes, concentrates as well as in mash, pelleted or expanded feed.
<b>Palatability:</b>	At the recommended dosage AGOLIN TANNIN is readily accepted.
<b>Compatibility:</b>	AGOLIN TANNIN is compatible with other commonly used feed additives such as enzymes, acidifiers, probiotics, yeasts etc.
<b>Tolerance:</b>	At three times the recommended level, feed intake might be reduced.
<b>Safety for non-target animals:</b>	In case of accidental access to non-target animals, AGOLIN TANNIN presents no particular risks.
<b>Packaging:</b>	AGOLIN TANNIN is available in 25 kg paper bags and in big bags of 500 kg.
<b>Quality control:</b>	AGOLIN TANNIN is subject to a strict quality control procedure before release for distribution.

## Product Information

**Health and safety data sheets:**

Available upon request.

**Legislation:**

For EU countries, AGOLIN TANNIN complies with the Regulation (EC) 1831/2003 on feed additives and the legislation concerning the undesirable substances and products in animal nutrition.

AGOLIN TANNIN is classified as "premixture of flavouring compounds" (sensory additives).

All flavouring compounds used in AGOLIN products are listed on the Register of Feed Additives pursuant to Regulation (EC) No. 1831/2003.

For the United States, all flavour ingredients contained in AGOLIN TANNIN are FDA approved.

November 2019
